About The Ryan Thomas Foundation

The United States Coast Guard states, "Boating accident statistics show that drowning is the single biggest cause of death in recreational boating accidents for more than 70% of boating deaths. Our data also shows that over 80% of drowning victims were NOT wearing life jackets when found." Drowning incidents are at a record high and have been for the last few years.

In 2008, the Thomas family suffered the tragic loss of a family member, Ryan Thomas, at Saguaro Lake in an unintentional drowning accident. After Ryan's death the Thomas family created The Ryan Thomas Foundation as a non-profit organization that holds annual fundraisers to raise money for charitable organizations that mirror the passions Ryan felt, as well as, promote life jacket awareness and water safety.

Since it's inception in 2009, the foundation has donated over \$150,000 to organizations such as Drowning Prevention Coalition of Arizona, Cardon Children's Hospital, YMCA, Outdoor Experience for All, Phoenix Children's Hospital and Arizona Game and Fish Department. In addition, over 1,000 life vests have been donated to the YMCA and AZGFD and are currently available at one of the 16 life jacket kiosks currently installed at Arizona Lakes.

The Ryan Thomas Foundation is pleased to announce the installation of 18 more kiosks through the Arizona Game and Fish Department in 2018.
